NO MORE CHOICES. SURROUNDED BY INDUSTRIAL GRAVEYARDS, BRUTALIZED BY HARSH CAPITALISM AND MASSIVE LAYOFFS THE LORRAINE REGION LAYS FACE ON THE GROUND.

BUT THOSE WHO FIGHT ARE THOSE WHO LIVE. AND MUCKRACKERS ARE AMONG THEM.

To honor the memory of past generations, dead miners and unemployed comrades Muckrakers decided to put out this album called "Bis zum Tod"; "until death" in German. A massive and restless record with 11 tracks and a bonus video. 11 tracks made from fresh sounds and old harsh punk sound. 11 tracks loaded with oxygen and carbon; greased by rust and covered by barbed wires.

DJ_NEGATIVE wrote this album over the past three years with the help of DJ_LÄRM (bass, vocals, metal percussions,

noises) and DJ_LA VERGE (vocals, electronics) and DJ_STAKHANOV (a figure of the local hardcore scene who joined the group for a session). Recorded and mixed at

NEGATIVE STUDIO between August and October. DDN from Burning Emptiness label took care of the mastering in January 2006. Muckrakers shared one track with the German band BEINHAUS. The two bands met on the road

Don't look for "Bis Zum Tod" in your local grocery stores. Not the kind of Muckrakers! Dig for it at your local sonic weapon dealer or on the web. The complete list of retailers appears on the Muckrakers website under the "distro" section.

CD are 10 euros apiece. MAXIMUM. Don't buy for more. Steal it instead.

This album could be the first or the last. No future. No marketing plans. What matters is what will happen when people listen to it. Let's hope that some of the listeners will form their own band and take after Muckrakers.

and their independent and rebellious identity matched with the Lorraine trio. The video of this song, directed and edited by ANDRES ABALO RAMIREZ is included on the CD.

That's why THE ALBUM CONTAINS A SURVIVAL GUIDE so that our brothers in arms keep on fighting. The guide gives all the techniques

to become a perfect harsh punker, always ready to blow it up to crank it anywhere, anyhow, anytime.

But this is not a last and desperate shot. We will not be buried alive.

"Bis Zum Tod" is an hymn to resistance against conformity, a call for arms. If we will have to die, we will die guitars in our hands. No proud. No glory.

No demagogy here neither. We want our poison to slowly get through all the groups of society. And to scare to death all the people who

hate us. Our action could die in the minute. We don't care much. We hit and run. Let's dance under bombings. We are in for an armed struggle. Guitars in hands.

Whenever. Wherever : eastern Europe squatts, dance halls, basements. We hate uniforms and obey to Guerilla rules. What choices have we left anyway ? We crushed rythms, built up guitars walls and

This is our way to fire back. Truth is not on television or in books. It's on the streets, in the mining towns. And the last days of the working class are still to come ! The steel is still boiling, the furnace is still working. We have been lied and miguided and put to sleep for so long. We have swallowed the boss poison and now we spit it up on his face.

scream slogans. Muckrackers use 6 chords like a Kalachnikov to shoot at radio tyranny ; to get rid of wild capitalism and free every people's expression.

We call on to every form of rebellion in music, arts, sports and trade unions. Together we could keep on fighting. Together we could build up a movement to fight against the mega chain stores and their crap culture.

**THIS NEWS SHEET WILL COME OUT WHENEVER NEEDED. KEEP AN EYE FOR THE NEXT ISSUE.
MUCKRACKERS WILL NEVER LET YOU DOWN.**

NOUS LUTTERONS JUSQU'À LA MORT !
